

Once you're on Water Street, you'll want to be south of the stoplights that are at the intersection of the main parking lot, Water Street, and Carnegie Avenue and enter the zoo by a maintenance driveway (see the red circle at the top of the following map). Follow this driveway, marked in red, to the Orientation Center, which is the other red circle. If you see camels on your left when you enter this section of the zoo, you're going in the right direction. There is a small parking lot on the south of the Orientation Center. The meeting starts at 8:00 PM.
